
BECOME A FRIEND OF ELECTRIC WINDOWS

For the past two years the Electric Windows project has beautified the East end of Main Street. This gift of public art has truly become a Beacon landmark for residents, and a must see destination for visitors and art lovers from around the world.

On July 31st 2010 we will be redoing the project and replacing the existing artwork with 24 new Murals. Like the first event most of the work will be created on site and installed during the event.

We have been actively raising money for the project for the past two years through our monthly Next Step parties and we have also received a generous grant from the Dutchess County Arts council. Although we are close to reaching our fund raising goal, with 3 months to go, we still need to raise more money to make the project a reality. We would like to ask for the support of the community and Beacon based businesses that have enjoyed the presence of this unique public art project to help us reach our budget goals and make the project a reality.

FRIENDS

Please take a look at our friend levels below and think about what the project has meant to you over the past two years. Every contribution is appreciated and will get us closer to meeting our goal by the date of the event. When the project is finished we will create a informational plaque that will list information about the project and a list of all of our supporters who helped make the project happen.
